### General : 2 change(s)

#### Bug Fix : 2 change(s)

##### **MedDebs: Admittance - Patient file number disappears after selecting Copy Main Member Details functionality**

*Dev Ref: 38349*

*Support Ref #: 827226*

Addressed the bug that would cause data loss when the `Copy Main Member Details` function was used. The function has been updated: patient information, including file numbers, will now only be copied if the corresponding patient fields are currently empty, preventing unintended data loss.

##### **MedDebs: Batch Transactions - Installment column does not consider primary invoice on Payment Plan**

*Dev Ref: 39554*

*Support Ref #: 861542*

Addressed the bug that would cause payment plan installments to exclude the primary invoice from the calculation.

### GxPrices : 1 change(s)

#### Development : 1 change(s)

#### **GXPrices: Pricelist Management - Cloning price collections does not transfer all data**

**Dev Ref: 39308**

Development to refine the cloning (duplication) of price collections has been completed.

The following changes were made:

1. The option `Duplication in another year ... with no markup-percentage` has been removed. Instead, use the option `Duplication in another year ... with markup` and set the markup percentage to 0.00%.
2. The option `Save this price collection as...` will now also copy the medical-aid pricelist linking.
