Desktop Version: 8.2518.01

General : 2 change(s)

Bug Fix : 2 change(s)

MedDebs: Admittance - Patient file number disappears after selecting Copy Main Member Details functionality

Dev Ref: 38349

Related Issue: 827226

Addressed the bug that would cause data loss when the "Copy Main Member Details" function was used.

The function has been updated: patient information, including file numbers, will now only be copied if the corresponding patient fields are currently empty, preventing unintended data loss.

MedDebs: Batch Transactions - Installment column does not consider primary invoice on Payment Plan

Dev Ref: 39554

Related Issue: 861542

Addressed the bug that would cause payment plan installments to exclude the primary invoice from the calculation.

GxPrices : 1 change(s)

Development : 1 change(s)

GXPrices: Pricelist Management - Cloning price collections does not transfer all data

Dev Ref: 39308

Related Issue: No Issue

Development to refine the cloning (duplication) of price collections has been completed.

The following changes were made:

1. The option "Duplication in another year ... with no markup-percentage" has been removed. Instead, use the option "Duplication in another year ... with markup" and set the markup percentage to 0.00%.
2. The option "Save this price collection as..." will now also copy the medical-aid pricelist linking.
