

Release Notes

Desktop Version: 8.2518.11

General : 2 change(s)

Bug Fix : 1 change(s)

MedDebs: Batch Transactions - Payment plan Re-calc function causes error

Dev Ref: 41359

Related Issue: No Issue

Addressed a system error the user would receive when using the Payment plan Re-calc function after the primary invoice has been posted. The Re-calc function will also display the correct amount of remaining installments, as previously it would display the incorrect amounts.

Request : 1 change(s)

MedDebs: Admittance - Debtor archived flag on new debtor structures

Dev Ref: 41385

Related Issue: No Issue

Add support for debtor archived flag on new debtor/patient data structures.
