

General : 3 change(s)

Bug Fix : 3 change(s)

GXManage: Global Lists - File Number macro in SMS template not working as expected when used from Age Analysis

Dev Ref: 39816

Related Issue: 862403

Addressed the bug where file numbers were not appearing in Age Analysis SMS messages.

MedDebs: Admittance - Unable to view Debtor Documents from Debtor Notebook

Dev Ref: 39158

Related Issue: 842397, 853318, 850821, 850756

Addressed the bug where the Debtor Documents button on the debtor's notebook did not respond as expected.

Stock: Stock Setup - Stock reports not displaying Subclasses

Dev Ref: 39692

Related Issue: 860562

Addressed the bug that caused subclasses to not populate on the stock reports.

GxPrices : 1 change(s)

Development : 1 change(s)

GXManage: Pricelist Management - Unit type linking not applying as configured for 0018 SP

Dev Ref: 40180

Related Issue: 873327

Development has been implemented to allow the following billing logic: When using a procedure-weight modifier code (unit type 2), the web application will now also look at other linking types. For clinical weight modifiers (unit type 3), the system will continue to only include codes that are specifically unit type 3.

Reports : 2 change(s)

Industry Requirement : 1 change(s)

Financial Reports: VAT - VAT report to support Capital Imported Goods vat type

Dev Ref: 40192

Related Issue: No Issue

Development to add a VAT type for Tax on Capital Imported Goods has been completed. This VAT type can be used to populate the 14A section on the SARS returns form, in accordance with the SARS guideline available at: <https://www.sars.gov.za/guide-to-completing-the-value-added-tax-vat201-return/>

Request : 1 change(s)

Financial Reports: VAT - Payment-based VAT report updated to support multiple VAT rates

Dev Ref: 40030

Related Issue: No Issue

A request to update the payment-based VAT report has been completed. The report now supports invoices containing multiple VAT rates by checking the relevant invoice line details.

Release Notes

Desktop Version: 8.2519.03

Stock : 1 change(s)

Request : 1 change(s)

Stock: Corrections - Validation added to detect and block data issues before Stock Take snapshots

Dev Ref: 39972

Related Issue: 874880

A request to add a system check for data errors before performing a stock take has been completed. If any issues are detected, a warning label will be displayed.
