Release Notes

Release Version : 2.18.0

General : 1 change(s)

Request : 1 change(s)

Referral Letter: Date of Birth layout improvement

Dev Ref: 44321

Functionality has been enhanced with an improved Date of Birth layout, including larger and repositioned calendar icons for easier date selection.

GXC : 2 change(s)

New Feature : 1 change(s)

Language & User Registrations: GXC system configurations

Dev Ref: 43763

Functionality has been adjusted to include a default language setting within the system configurations, ensuring that new user registrations and general system displays default to the preferred language.

Request : 1 change(s)

Referral Letter: Make Patient name a required field

Dev Ref: 43166

Functionality has been adjusted to ensure that the Patient Name field is now a mandatory requirement when completing an External Referral Letter.

Total : 3 change(s)
