

Release Notes

Release Version : goodxweb_1.16.30

General : 9 change(s)

Bug Fix : 7 change(s)

Communication: Switch History - Claims view issue

Dev Ref: 36492

Support Ref #: 783441, 769794

Addressed the issue where resolved claims did not display on the Switch History screen.

Debtor: Patient File - Cant View Operation Form on Patient File

Dev Ref: 36616

Support Ref #: 756825, 782692, 780027

Addressed the issue where the user was unable to view the operation from the patient file screen.

Debtors: Account Details - Account managers able to shift amounts

Dev Ref: 36498

Support Ref #: 464678

Addressed the issue where a user without invoice access was unable to shift outstanding amounts between Medical aid and Patient. Kindly note that a new privilege has been introduced to address the issue namely invoice.shift_outstanding.

Debtors: Account Details - Uploaded documents cant be viewed

Dev Ref: 36494

Support Ref #: 734803, 716226, 723760, 737494, 738175, 757006, 758526

Addressed the issue where the user could not open uploaded documents from the account detail screen.

Diary: Invoice - Incorrect Calculation of Billing Macros for Private tick Patients on medical aid Debtors

Dev Ref: 36496

Support Ref #: 782373, 765297, 737924, 734876, 771582, 767068, 773315, 766377

Addressed the issue where modifiers did not apply correctly when used from a billing macro and the patient was set to private.

Theatre Booking: Operation - Error without clinical.create access

Dev Ref: 36497

Support Ref #: 760195

Addressed the issue where a user without the clinical.create privilege received an error when creating an operation. Kindly note that the issue was resolved with the addition of a new privilege namely workflow_event.operation. A user without the clinical.create privilege will be able to create an operation if they have the workflow_event.operation.

Diary: Debtor Edit - Access restrict for users to only add Ref Drs

Dev Ref: 36495

Support Ref #: 760484

Addressed the issue where users with restricted access could add practitioners of all or any of the practitioner types type, causing unauthorized users to select from or add practitioners with incorrect practitioner types.
