Debtor: Clinical - Update Audio Recording card UI and add delete functionality on Clinical screen

Dev Ref: 40512

Related Issue: No Issue

Functionality has been adjusted to delete an audio recording after it has been created, re-submit the recording for transcription if needed, and see a visual indicator when the transcription is complete.

Diary: Clinical - Display Field Setup on GoodXpert screen and show response generated for acceptance

Dev Ref: 40489

Related Issue: No Issue

Functionality has been adjusted to ensure that each field selected during AI Setup displays an entry in the Fields accordion, showing both the full Field Path and the original Prompt text.
