Release Notes

31 October 2019

Release Version : GoodX Web App v1.3.10

8 change(s)

Program Improvements

[Debtor Details - Physical Address] Debtor address fields can now be up to 100 characters long. (Odoo Issue: 231317)

[Task Screen - Medical History Button] A button has been added to the task screen which allows the user to go to the medical history screen of the linked patient. (Odoo Issue: 248274)

[Task Screen - Task Count] The outstanding task counter now correctly displays the correct quantity of tasks assigned and claimed by a user. (Odoo Issue: 248325)

[Debtor Edit] Users can now optionally add nicknames to patients, which display in various applicable places on the screens (but not on printouts). (Odoo Issue: 230879)

Bug Fixes

[Multi Day SMS] Addressed the issue where the Multi Day SMS filter did not filter on the entire date range entered. (Odoo Issue: 217917)

[Medical History - Chronic Diagnosis] Addressed the issue where the user was unable to add or remove Chronic Diagnosis' on the Medical History screen. (Odoo Issue: 241290)

[Clinical Event - Pathology] Addressed the issue where when selecting a provider from the drop down menu the Quick Item list did not display. (**Odoo Issue: 242505**)

[Task Screen - Pathology] Addressed an issue where pathology results and other tasks would sometimes display as duplicates on the Tasks screen.

1. Assign a task to someone.
2. Go to the All Tasks mode - the task should show in the Allocated column.
3. Drag it to the Closed column to close it.
4. Check that it does not show in both columns anymore.
