Release Notes

30 October 2019

Release Version : GoodX Web App v1.4.3

4 change(s)

Program Improvements

[User Entity Settings] Added an option under the User Entity Setting, 'Block if no diagnosis'. This will block the user if no diagnosis is filled in on the booking.

Bug Fixes

[Task Screen - Pathology] Addressed an issue where pathology results and other tasks would sometimes display as duplicates on the Tasks screen.

1. Assign a task to someone.
2. Go to the All Tasks mode - the task should show in the Allocated column.
3. Drag it to the Closed column to close it.
4. Check that it does not show in both columns anymore. (Odoo Issue: 243123)

[Portal - Admin Tab] The issue where the admin tab was not functioning in the portal has been resolved. (Odoo Issue: 248245)

[Clinical Notes - Invoice Screen] Addressed the issue where non-clinical users were still able to view the clinical screens has been resolved. (Odoo Issue: 248157)
